

Independence Home Energy Loan Program Eligible Measures List

The energy saving improvements listed below qualifies for loans through the Independence Home Energy Loan Program. Owner-occupants of single family residences located in the City of Independence are eligible to participate in the Independence Home Energy Loan Program to finance contracted energy efficiency improvements for their home. Independence residents may apply for loans through the City Credit Union. A list of Program participating contractors is available from Independence Power & Light (www.independencemo.org/pl). Other measures may qualify if recommended through a qualified energy audit conducted by a Program participating energy auditor.

For more information, contact Jennifer Newbold at 816-325-7485 or jnewbold@indepmo.org.

Building Shell Improvements	Minimum Efficiency Required
Exterior Doors (replacement only)	Energy Star®
Storm Windows & Doors	Energy Star®
Windows (replacement only)	Energy Star®
Air Sealing and Insulation	
ES Certification not required, provided that all of the following must be completed:	
Air sealing of the home and ducts is performed, and	
Ceiling insulation installed achieves R-38 or better*, and	
Floor insulation installed achieves R-25 or better*, and	
Wall insulation installed achieves R-15 or better*	
*Unless structural limitations prevent achievement of these insulation levels, in which instances the maximum R-value that can be achieved is required.	
HVAC Measures	
Air Source Heat Pump (split system - replacement only)	Energy Star®
Air Source Heat Pump (package system - replacement only)	Energy Star®
Central AC (split system - replacement only)	Energy Star®
Central AC (package system - replacement only)	Energy Star®
Furnaces (gas-replacement only))	Energy Star®
Furnaces (oil-replacement only)	Energy Star®
Groundsource Heat Pumps (closed loop systems - replacement only)	Energy Star® Tier 1
Groundsource Heat Pumps (open loop systems - replacement only)	Energy Star® Tier 1
Programmable Thermostats	
Ceiling Fans (existing homes)	Energy Star®
Water Heating Measures	
Water Heater (electric heat pump - replacement only)	Energy Star®
Water Heater (gas storage - replacement only)	Energy Star®
Water Heater (gas tankless - replacement only)	Energy Star®
Water Heater (solar)	Energy Star®
