

The City of Independence Power & Light Department Wood mulch request form

The City of Independence Power and Light offers free wood mulch to our residents. The mulch is made from trees and brush trimmings that are trimmed from our Tree Trimming Program. If you are interested in receiving wood mulch at no charge please complete the attached form and submit to TreeTrimming@indepmo.org or mail to IPL, 21500 E Truman Road, Independence, MO 64056.

Details about the wood mulch

- From April through October, the mulch is full of green leaves and is in a compost stage.
- Average size load contains approximately 12 cubic yards which is about 3-1/2 ft .high x 8 ft. wide x 12 ft. long.
- Green mulch takes 4-6 weeks to deteriorate. Because it is in a compost stage, mulch may severely damage garden plants and shrubs.
- During the warm season, green mulch may attract stinging insects, i.e., yellow jackets, wasps, etc.
- During the deterioration process, the mulch will have a strong odor like that of rotting grass or leaves.
- The mulch will kill grass under it and it will stain a driveway.
- The mulch will probably contain stringy material, small sticks, yard rakings, etc.
- Do not burn wood mulch in any wood burning stove, fireplace, furnace, etc.
- We cannot guarantee time or day of delivery.
- Once the load is delivered and unloaded, it becomes your property and we will not pick it up.
- We will not deliver when the ground is wet for fear of damaging the yard.

The wood mulch cannot be used for landfill but can be used for compost or landscaping materials.

Do Not use around livestock, as it could be harmful.

Wood Mulch Request Information

Name: _____ Telephone: _____

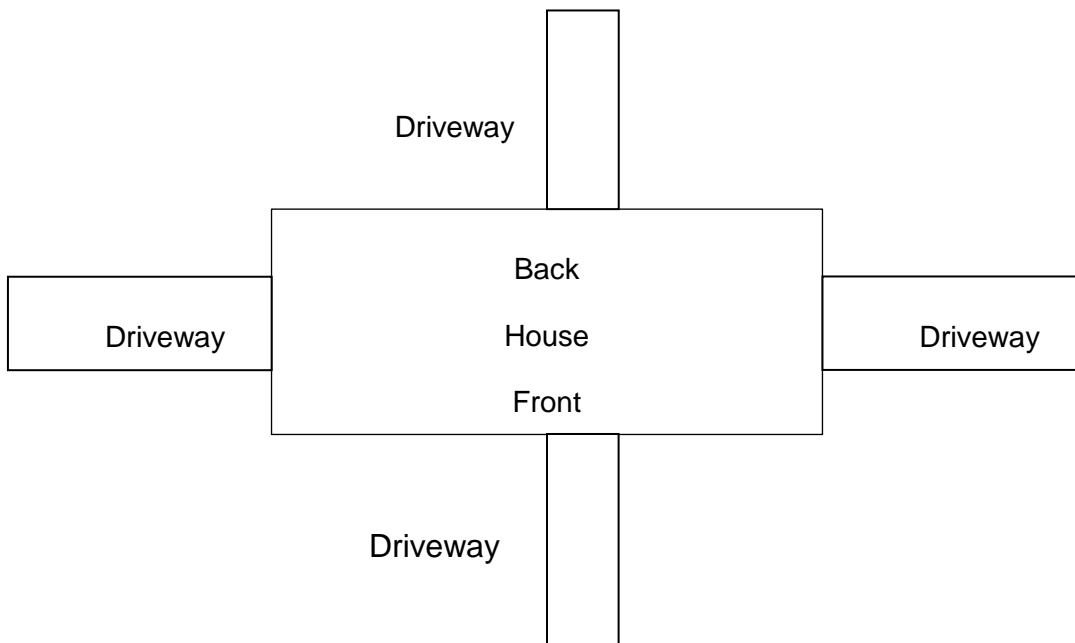

Street Address: _____ Zip Code: _____

Mailing Address (if different than above): _____
