

Large General Service (MG2)

AVAILABILITY: Electric service is available under this schedule, in the entire area served by the Department's existing secondary distribution system, to any customer for all power and energy uses. This schedule is not applicable to resale or shared electric service. Customers taking service under this rate schedule must contract for no less than 25 kW.

SEASON PERIOD: Periods are defined by the date when the customer's meter is read. The summer season contains read dates from June 1st through October 31st. The winter season contains read dates from November 1st through May 31st.

TERMS OF SERVICE: Service rendered under this schedule is subject to the Department's standard rules and regulations.

TERM OF CONTRACT: Contracts under this schedule shall be for a period of not less than one year from the effective date thereof.

BILLING DEMAND DETERMINATION: The monthly billing demand shall be the maximum 30-minute measured kW demand as adjusted for power factor during the month. The minimum billing demand during any month shall not be less than 25 kW nor less than 80% of the highest adjusted measured demands established during the summer billing months of July, August and September for the twelve months ending with current month. Monthly measured demands will be adjusted or corrected for power factor if customer's power factor is found by test to be less than 85% lagging. The measured demand corrected for power factor is determined by multiplying the maximum measured kW demand during the month by 85% and dividing by the percentage power factor as determined. Fractional Billing demands will be rounded to the nearest whole kW demand.

Large General Service (MG2)

Available to all customers, effective November 1, 2023

MONTHLY CHARGES

Customer Charge	\$40.00 each month
Demand Charge	All kW \$9.64/kW
